PROFESSIONAL EXPERIENCE

Full-Stack Developer Apprentice | *E-Digital Pakistan (PSEB-Supported Program)*

Nov 2025 – May 2026

- Selected for a government-backed PSEB Full-Stack apprenticeship.
- Built full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed and consumed RESTful APIs; integrated frontend components with backend services and both SQL and NoSQL databases.
- Maintained clean version history and collaborated on shared codebases using Git and GitHub.

Full-Stack Web Developer (Remote) | *Veritas Accounting & Tax Consultants — Canada*

Dec 2025 – March 2026

- Developed and maintained production-level web features using React.js and Next.js, improving application performance and user experience.
- Built and documented RESTful backend APIs using Python (Flask), enabling seamless data flow between frontend and database layers.
- Integrated frontend forms with backend APIs and database workflows, reducing manual data-handling errors.
- Debugged and resolved critical production issues, improving overall application stability and uptime.
- Collaborated asynchronously with a remote cross-functional team to deliver features on schedule.

Web Developer (Freelance) | *The Korn*

Oct 2025

- Designed and developed a production website for a live business (thekorn.com.pk) with full deployment on a custom domain.
- Implemented responsive UI components ensuring cross-device compatibility.
- Managed post-launch updates and ongoing website maintenance independently.

Software Quality Assurance Engineer | *Productbox, Peshawar*

Mar 2025 – Aug 2025

- Executed manual test cases covering UI, UX, and functional workflows for production web applications.
- Documented and tracked bugs in JIRA, collaborating with developers to achieve timely resolutions.
- Validated REST API request/response flows using Postman, ensuring data integrity across endpoints.
- Contributed to frontend improvement discussions, bridging QA insights with development priorities.

Teaching Assistant — Software Engineering & Automata | *FAST NUCES, Peshawar*

Aug 2024 – Jun 2025

- Assisted 100+ students in understanding core concepts in Software Engineering and Theory of Automata.
- Evaluated assignments and provided constructive feedback to improve student understanding and performance.
